

Introducing our new CEO Mr. Kamran Kamal

We are pleased to announce the appointment of Kamran Kamal as the new CEO of HUBCO. Kamran will succeed Khalid Mansoor and assume responsibilities from 1st July 2021. Mr. Mansoor led the company for eight years and played a pivotal role in the growth of the Company.

Kamran is a competent leader with over 18 years of progressive responsibility and leadership experience in energy, infrastructure, commodities, business development and strategy. He has been responsible for large capital projects, building organizational capabilities and for overall business delivery in both management, executive, and Board roles.

Kamran has been a part of the HUBCO family for the last 6 years. He led the development of Barge Jetty and fuel supply chain for the 1320 MW Coal fired Power Plant of China Power Hub Generation Company, a joint venture between HUBCO & China Power International Holding (CPIH). He is currently the CEO of Laraib Energy Limited, a hydel subsidiary of HUBCO.

Kamran holds a Masters from Harvard and a Bachelors in Electrical & Computer Engineering from Georgia Tech, USA.

Under Kamran's leadership HUBCO will focus on retaining its position as a corporate leader by focusing on renewables, wholesale market for the Power Sector and diversification into sustainable solutions. Kamran's understanding of the Power Sector, regulatory environment and his experience of closely working with key external stakeholders will facilitate this transition.

Kamran's appointment is a testament of confidence in our homegrown talent. We take pride in our passionate, competent and engaged young team. HUBCO is committed to addressing some of the most pressing issues in the energy sector and infrastructure.
